TOOLS

Programming

MATLAB, Go, Python, Git

Mechanical Design

CATIA, NX, Arduino

Documentation

Jupyter, LaTeX, Office

Web

Hugo, CSS, Javascript, HTML

INTERESTS

- Data Science
- Free Software & Open Source
- Robotics
- Automation
- Simulation
- I&D
- Education
- Knowledge Management
- Course design
- Documentation Design
- Accessibility

Others

- Athletics
- Olympic Weightlifting
- Classical Guitar

LANGUAGES

Spanish: Native

English: Fluent

- AICE Diploma (2014)
- TOEIC R&W (2018)
- TOEIC S&L (2020)

PROFILE

I'm a last year Mechanical Engineering student at ITBA with a strong interest for programming.

I'm a fast learner. Because of my experience teaching, I can explain complex topics in simple terms, which allows me to act as a bridge between people from different fields.

My objectives are:

- Work in a collaborative, dynamic, and multidisciplinary environment where I can improve my programming skills.
- Share knowledge within the organization.

EDUCATION

Mechanical Engineering, with focus in materials engineering | [ITBA](#)

 2015-2020 (Project pending)

- Completed: 95%
- Score: 7,03/10

AICE Diploma - Highest overall mark in Argentina in the November 2014 examinations | [Cambridge \(CIE\)](#)

 Nov. 2014

Bachelor of Social Sciences | [Bede's Grammar School](#)

 2014

EXPERIENCE

Physics and Chemistry High School Teacher | [Bede's Grammar School](#)

 July 2018 - February 2021

EXTRACURRICULAR

Volunteering Youth Olympic Games | [Buenos Aires 2018](#)

 6-18 October 2018

Olympic Park

Participation at IEEEExtreme (Competitive Programming)

 2017, 2018, 2019, 2020

ITBA
